Тема: Экскурсии. Путешествия.

Задание: 1. Прочитайте текст. Переведите его на русский язык.

Travelling

We live in times when it's rather easy to travel to any point of the planet. So no wonder travelling becomes more popular. What is more, our modern life is impossible without travelling. And there are many reasons for this.

A few decades ago it couldn't be imagined that we would be able to travel almost everywhere. Now we can travel by different means of transport: by plane, by ship, by train, by car and even on foot. Some people like to travel by plane, because it is the best way to get to a foreign country fast. But others prefer traveling by train. They say that this method is more convenient and cheaper. Anyway, we have got something to choose from. And the way of travelling depends only on our opportunities and preferences.

Another good thing is that travelling helps us live and enjoy life. When we get tired of our daily routine, we need to change the surroundings. And travelling is one of the best way to break the monotony of our life. We travel, see new countries and cities, visit historical places, meet new people and taste different dishes. It brings us new impressions and makes life brighter. And that's why millions of people all around the world adore travelling.

And finally, it is commonly known that travelling is a very nice activity. It's the time for relaxation and thinking. Nothing can give us a great deal positive emotions and memories as travelling. It is often said that travelling broadens mind. And personally I believe that it is an undeniable truth.

Задание 2. Письменно ответьте на вопросы по тексту на английском языке.

- What are the ways of travelling?
- What affects the choice of the way of travelling?
- What the way of travelling do you prefer and why?
- How does travelling affect daily life?
- What do you do when travelling?
- What does it bring us?

Даю подсказку: проще всего отвечать на вопросы с помощью готовых предложений из текста. Однако, на развитие навыков общения гораздо большее влияние оказывает самостоятельная формулировка ответов. Поэтому старайтесь если не всю работу выполнять от себя, то хотя бы соблюдать принцип золотой середины, и не заимствовать из текста абсолютно все.
